

Vegetarian Menu

Applicable to British Columbia, Alberta, Manitoba, and Saskatchewan.

Our vegetarian menu items do not include meat, beef, pork, poultry, fish, seafood, or gelatin. Vegetarian items may include dairy and/or egg.

Please note: We cook poultry, shrimp, and squid in our deep fryer and have therefore removed all deep-fried items from the vegetarian menu.

In addition, while we take every precaution to prevent cross-contamination, there is always a risk that cooking surfaces and cooking utensils may have been in contact with animal products other than eggs or dairy.

Our food suppliers do not always disclose whether the rennet, lipase, or other enzymes in our cheeses comes from an animal, plant, or microbial source. It is also common for food producers to change the type of enzymes they use based on cost and supply. We advise guests who are concerned about these enzymes to avoid menu items that contain cheese.
